Exclusive to us on a rare

AMERICAN RAVER OF THE MONTH

Dear Quest,
I need penpals deperately. It's lonely in here
America, especially when you're into hardcore,
and I would like to communicate with anybody
who's willing to spare some time. I live outside
Washington DC, and we have one of the best
scenes in the US, but nothing compares to what
you guys have. You are so lucky. I've got tons
of old Universe and Fantazia tapes (and would
love live tapes from Quest) that friends have
brought back after visiting the UK, and can't
believe the crowd response you guys pay your
DJs. They've told me plenty of good things
about the UK (nothing bad) but I want to hear
about your scene directly from YOU! I couldn't
scrounge up enough money to visit this
summer, but hopefully I'll be able to get over
there soon. Tell me what makes Quest so
special, and who your favourite DJs/MCs are
and why. I especially want to hear from some
good hardcore dancers and learn all your
tricks. Write me at:
